 Junior Suite surcharge; € 17,00 per person, per night  
 Suite surcharge; € 22,00 per person, per night

## THERMAE

### TRADITIONAL THERMAL TREATMENTS

Our thermal structure uses "Mature Mud" certified by the University of Padua. Mud is the typical curative element of our thermal complex, and it is made of a solid clay-like component, a liquid component (salted-bromide-iodic hypothermal water) and an organic one (algae, protozoan, etc...). For the mud to become an actual medicine, it needs to "mature" inside special tanks, being in direct and constant contact with thermal water, sunshine rays and air. Only mature mud has clinical, physical, biological and, therefore, therapeutic characteristics that make it the most suitable means for an anti-inflammatory, pain-killing, muscle relaxing and revitalizing therapy.

### ANTI-INFLAMMATORY ACTIVE INGREDIENTS IN THE EUGANEAN THERMAL MUD BATHS

The European Patent No. 1571203 protects and guarantees the presence in thermal mud of numerous active ingredients, naturally produced during the ageing process when correctly regulated. Scientific research at the Pietro d'Abano Thermal Studies Center, owner of the patent, has allowed identifying them and shown the efficaciousness in treating chronic and degenerative inflammatory pathologies, in particular of osteoarticular origin.

### A TRADITIONAL MUD THERAPY TREATMENT CONSISTS OF:

1. Thermal mud application on the body (about 15-20 min): this procedure is in the care of experienced staff who follow the therapeutic indications of the thermal doctor; after the application of mud, the guest is wrapped up in sheets and blankets in order to reduce heat loss.
2. Thermal bath (about 8-10 min): to complete the treatment, the guest plunges in the bath for the balneotherapy; the bath is filled with thermal water at 36/38°C. The thermal bath works as a vasodilator and has a muscle relaxant effect.
3. Time of rest for the sweat reaction: we recommend this time of rest, where the guest lies down in the warmth, allowing his body to take full advantage of the benefits induced by the mud therapy. The most noticeable effect is an intense perspiration.
4. Muscle relaxing therapeutic massage: while the muscles are still warm, the therapist can perform a deep manipulation of the guest's body. The massage improves blood circulation, restores mobility, and helps the elimination of waste.

We recommend a cycle of 10-12 applications per year, that can be done during a two-week stay so that the guests can enjoy the benefits in the following months.

## TRADITIONAL THERMAL TREATMENTS - FORAITS OF STAY

Our proposals of thermal treatments refer to a stay in Classic double room, full-board basis, and include free access to the thermal swimming-pools and to the Wellbeing Centre Elisir, mud applications with thermal shower and ozonized bath, reaction massages (14 min.), usage of bathrobe for the whole stay and fitness program (medical examination excluded).

Please note that ozone in the thermal bath is included in the price of the package and cannot be deducted.

At least one day's notice is required for booking. Bookings are welcome by email to [harrys@harrys.it](mailto:harrys@harrys.it) or by telephone on 049 667011.

## HOW TO GET HERE

### BY CAR

For those who travel on the A4 Torino-Trieste motorway, the recommended exit is Padova Ovest, both if you are coming from Milano and from Venezia; from here, continue on the bypass (Tangenziale ovest: Corso Australia) until the junction for Abano. Here, you enter the strada provinciale that goes from Padova to Abano and, after 4 km, you arrive to our hotel. For those arriving from the A13 Bologna-Padova motorway, the recommended exit is Terme Euganee; from here, take the SS Adriatica towards Padova and follow the indications for Abano Terme. After 5 km, you arrive at our hotel.

### BY TRAIN

The closest train station is Terme Euganee in Montegrotto, on the Bologna-Padova line; all the regional and interregional trains stop here. The train station of Padova, on the Milano-Venezia line, is convenient as well, because all the trains (included the Freccce) stop here. From the station square there are buses of the A, M, T, AT lines that leave every 15 minutes for Abano (30 minutes-long ride). Both stations provide taxi service.

### BY PLANE

The plane might be the right means to reach Abano as well. The closest airport is Venezia Marco Polo (50 km), where the main national and international airline companies stop over. From here you can reach Abano by taxi or shuttle buses. Also the international airports of Treviso (70 km) and Verona (80 km) are quite close and convenient to reach.
